

APEX

APEX PRO SKELETON CARBON CASE

The Apex Pro Skeleton Carbon Case is Alphacool's first modular design case with real carbon struts and customized distro plate.

EXTRAVAGANCE

BUILT TO DOMINATE.

The impressive case offers an exceptional design and reflects what Apex means: extravagance and uniqueness combined with high quality and innovative ideas. The individuality of the housing offers freedom for creativity. It can be completely disassembled into individual parts and rebuilt.

Features:

- Can be completely disassembled
- Struts, mainboard tray, fan frame and brackets made of real carbon fiber
- Components CNC milled
- Included distro plate designed specifically for this case
- Included customized vertical GPU mount, cable complies with PCIe 4.0 specification.
- The case is modular, modifiable with additional parts
- Smoked glass side panels

Variants:

- Alphacool Apex Pro Skeleton Carbon Case
- Alphacool Apex Skeleton Aluminum Case (without distro plate and vertical GPU mount)
